RECYCLING CENTER  
GENERAL APPROVAL CONDITIONS  
FOR RECEIPT, STORAGE, PROCESSING OR TRANSFER  
OF CLASS B RECYCLABLE MATERIALS

Under the provision of N.J.S.A. 13:1E-1 et seq. and N.J.S.A. 13:1E-99.11 et seq., known as the Solid Waste Management Act and the New Jersey Statewide Mandatory Source Separation and Recycling Act, respectively, and pursuant to N.J.A.C. 7:26A-1 et seq., known as the Recycling Regulations, this Approval is hereby issued to:

**RECYCLING OF CENTRAL JERSEY, LLC**

MUNICIPALITY:	<u>Jackson Township</u>
BLOCK NO.(S):	<u>14.19 / 14.15</u>
LOT NO.(S):	<u>1 / 25</u>
COUNTY:	<u>Ocean</u>
CAPACITY:	<u>1600 TPD</u>
RECYCLING CENTER NUMBER:	<u>1511001191</u>
APPROVAL EXPIRATION DATE:	<u>June 15, 2004</u>

This Approval is subject to compliance with all conditions specified herein and all regulations promulgated by the Department of Environmental Protection or as may be amended in the future. All references to specific regulations include any future amendments thereto.

This Approval shall not prejudice any claim the State may have to riparian land, nor does it allow the facility or its principals to fill or alter, in any way, lands that are deemed to be riparian, wetlands, stream encroachment areas or flood plains, or that are within the Coastal Area Facility Review Act (CAFRA) Zone or are subject to the Pinelands Protection Act of 1979, nor shall it allow the discharge of pollutants to waters of this State without prior acquisition of the necessary grants, permits, or approvals from the Department of Environmental Protection.

Compliance with the terms of this Approval does not relieve the facility or its principals of the obligation to comply with all applicable local, state and federal statutes, rules and others permits, and municipal approvals or ordinances which are not preempted by the DEP solid waste regulations at N.J.A.C. 7:26-1 et seq. and the recycling regulations at N.J.A.C. 7:26A-1 et seq.

Failure to comply with all the conditions specified herein may result in revocation of this Approval and/or may result in other regulatory or legal actions which the Department is authorized to institute by law.

This Approval shall be effective for not more than five (5) years. An approval renewal shall be obtained from the Department prior to any activities which are to occur after the expiration of this Approval. In applying for a renewal, applicants shall follow the renewal submission requirements and procedures set forth in N.J.A.C. 7:26A-3.6.

This Approval is non-transferable, except as set for in N.J.A.C. 7:26A-3.15.

Expiration Date

**Recycling Center General Approval  
for  
Recycling of Central Jersey, LLC**

**A. AUTHORIZED RECYCLABLE MATERIALS**

**1. Permitted Class B Recyclable Materials**

The following source separated Class B recyclable materials which have been separated at the point of generation from other waste materials or separated at a permitted solid waste facility authorized to separate recyclable materials may be received, stored, processed or transferred at this facility:

Asphalt  
Concrete  
Tree Stumps  
Wood (Specifically, non-chemically treated & unpainted)

At no time shall the receipt, storage, processing or transferring of non-source separated construction and demolition material be allowed at this facility. The prohibition of this material shall be strictly enforced and any incident shall be considered a serious violation to the conditions of this Approval.

**2. By-Products**

Incidental amounts of rebar, metal, soil and other by-products which adhere to the Class B recyclable materials as specified in Condition A.1 and are returned to the economic mainstream as raw material or products, may be received, stored, processed or transferred at this facility.

Its receipt shall not be separately accounted for but its storage and end-markets shall be subject to specific conditions of this Approval.

**3. Contaminants**

The maximum amount of contaminants allowed in each incoming load of Class B recyclable materials for acceptance shall be limited to 1% by volume.

Incidental by-product materials included within the Class B recyclable materials shall not be considered to be

contaminants.

## B. DESIGN AND CONSTRUCTION

The construction of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the New Jersey Uniform Construction Code, the approved documents listed below and this Approval.

### 1. Approved Documents

Site Plan Drawing No. SP1, dated November 1997, last revised February, 2000 and signed and sealed by C. Barry Cooper, L.S., February 25, 2000.

Bil-Jim Construction Co., Inc. II - Application for General Approval to operate a Recycling Center for Class B recyclable materials, prepared by Bil-Jim Construction Co., Inc. II, dated March 26, 1992.

Bil-Jim Construction Co., Inc. II - Response to the April 27, 1992 Administrative Completeness letter, and attachments, dated June 24, 1992.

Bil-Jim Construction Co., Inc. II - Response to the October 30, 1992 Notice of Deficiency, and attachments, dated May 28, 1993.

Bil-Jim Construction Co., Inc. II - Response to the October 1, 1993 Notice of Deficiency, and attachments, dated January 12, 1994.

Bil-Jim Construction Co., Inc. II - Response to the February 17, 1994 D.E.P.E. meeting, and attachments, dated February 18, 1994.

Recycling of Central Jersey, LLC - Request for modification and renewal, prepared by Recycling of Central Jersey, LLC, signed by Pamela J. Flockhart, dated March 20, 2000.

Recycling of Central Jersey, LLC - Letter of Site Plan Approval from Whitesville Fire Company #1, signed by Glenn E. Blasi, Chief, dated March 16, 2000.

Recycling of Central Jersey, LLC - Letter providing additional information regarding name change to Recycling of Central Jersey, LLC, signed by Pamela J. Flockhart, dated June 16, 2000.

## C. RECYCLING CENTER OPERATIONAL STANDARDS

The operation of this facility shall be in accordance with the provisions of N.J.A.C. 7:26-1 et seq., the standards set forth herein and the approved documents specified in Condition B.1. Where any discrepancy exists, the terms of this Approval shall prevail.

### 1. Hours of Operation

Hours of operation for receiving, storing, processing or transferring source separated recyclable material as specified in Condition A.1 of this Approval shall be limited to 7:00 a.m. to 7:00 p.m., Monday through Saturday.

### 2. Residue

Residue defined as solid waste, shall be transported by a NJDEP registered transporter for disposal pursuant to the applicable district solid waste management plan.

Residue shall be stored separately from recyclable materials and in containers and in a manner which prevents run-off, leakage or seepage from the residue storage area into, on or around the soil of the residue storage area.

No residue shall be stored on site for a period exceeding six (6) months without prior approval of the NJDEP.

### 3. Maximum Daily Capacity

The facility may receive no more than 1600 tons per day of recyclable materials consisting of 500 tons per day of concrete, 500 tons per day of asphalt, 500 tons per day of tree stumps and 100 tons per day of wood materials as specified in Condition A.1 of this Approval.

### 4. Maximum Weekly Capacity

The facility may receive no more than 9,600 tons per week of recyclable materials consisting of 3,000 tons per week of concrete, 3,000 tons per week of asphalt, 3,000 tons per week of tree stumps and 600 tons per week of wood materials as specified in Condition A.1 of this Approval.

5. Unprocessed Materials Storage

- a. The total amount of unprocessed concrete and asphalt recyclable materials stored on site shall not exceed 41,171 cubic yards consisting of an unprocessed concrete stockpile containing 9,143 cubic yards, an unprocessed concrete pipe stockpile containing 8,316 cubic yards, a mixed unprocessed concrete and asphalt stockpile consisting of 13,212 cubic yards and an unprocessed asphalt stockpile consisting of 10,500 cubic yards. Unprocessed concrete and asphalt materials stored on site shall be stored only in those areas designated for that purpose as indicated on the approved site plan.

If at any time, the amount of unprocessed concrete and asphalt materials stored on site exceeds 41,171 cubic yards, the facility shall immediately cease receiving any unprocessed concrete and asphalt material until the amount of unprocessed concrete and asphalt materials stored on site falls below 41,171 cubic yards.

- b. The total amount of unprocessed tree stumps and wood recyclable materials stored on site shall not exceed 6,917 cubic yards and shall be stored only in the areas designated on the approved site plan.

If at any time, the amount of unprocessed tree stumps and wood recyclable materials stored on site exceeds 6,917 cubic yards, the facility shall immediately cease receiving any unprocessed tree stumps and wood recyclable materials until the amount of unprocessed tree stumps and wood recyclable materials stored on site falls below 6,917 cubic yards.

All unprocessed recyclable materials (concrete asphalt, tree stumps and wood) shall not remain on site, in its unprocessed form, for more than one (1) year.

6. Processed Materials Storage

- a. The total amount of processed concrete and asphalt materials stored on site shall not exceed 26,822 cubic

yards consisting of a processed concrete stockpile containing 5,489 cubic yards and a processed asphalt millings stockpile containing 21,333 cubic yards. Processed concrete and asphalt materials stored on site shall be stored only in those areas designated for that purpose as indicated on the approved site plan.

If at any time, the amount of processed concrete and asphalt materials stored on site exceeds 26,822 cubic yards, the facility shall immediately cease receiving concrete and asphalt recyclable materials until the amount of processed concrete and asphalt materials falls below 26,822 cubic yards.

- b. The total amount of processed tree stumps and wood recyclable materials stored on site shall not exceed 25,293 cubic yards and shall be stored only in the areas designated on the approved site plan.

If at any time, the amount of processed tree stumps and wood recyclable materials stored on site exceeds 25,293 cubic yards, the facility shall immediately cease receiving tree stumps and wood materials until the amount of processed tree stumps and wood recyclable materials stored on site falls below 25,293 cubic yards.

All processed material (concrete, asphalt, tree stumps and wood materials) shall be stored separately from residue.

## 7. By-Products Storage

By-products shall be stored in the container(s) or area(s) as depicted on the approved site plan and shall be removed off-site to the end markets as referenced in the approved documents.

## 8. Horizontal and Vertical Controls

Horizontal and vertical control points for the unprocessed and processed materials stockpile areas shall be set and maintained on site. Horizontal limitation markers shall be set at the corners of the stockpile areas as depicted on the approved site plan. Vertical limitation markers shall be set at locations in close proximity of the stockpile areas and shall clearly establish elevation heights of 30 feet above the existing grade for all unprocessed and processed concrete and/or asphalt stockpiles and 25 feet above

the existing grade for both the unprocessed and

processed (mulch) wood materials stockpiles.

Metal pipe or metal rods or the equivalent as approved by the Department shall be used to establish these control points. Within approximately thirty (30) days of the date of this Approval, a joint site inspection shall be held at the facility between the owner/operator and representatives of the Department for the purpose of establishing the locations of these markers.

9. Commingling

The facility may receive, store, process or transfer source separated concrete and asphalt separately or in a commingled manner. The facility may receive, store, process or transfer source separated tree stumps and wood materials separately or in a commingled manner. The commingling of concrete and asphalt with tree stumps and/or wood is strictly prohibited.

10. Applicable Regulations

The operation and related activities of this recycling center shall be in conformance with all applicable federal, State, county, municipal and local statutes, rules and ordinances including but not limited to nuisance, noise, fire and safety codes.

11. Safety Procedures

The operation of the recycling center shall be in conformance with the Occupational Safety and Health Act (OSHA) regulations as contained in the General Industry Standards 29 CFR 1910. Construction activities shall be in conformance with the OSHA regulations as contained in the Construction Industry Standards 29 CFR 1926. A copy of the safety procedures shall be posted on site.

12. Housekeeping

Routine housekeeping and maintenance procedures shall be implemented within the recycling center interior to prevent the accumulation of litter, dust and debris, and to maintain general cleanliness in the working environment.

13. Odor Control

The operation of this recycling center shall not cause

any air contaminant, including an air contaminant detectable by the sense of smell, to be present in the outdoor atmosphere in such quantity and duration which is, or tends to be, injurious to human health or welfare, animal or plant life or property, except for malodorous emissions emanating from the facility which result in odors in areas over which the owner and/or operator has exclusive use or occupancy.

14. Vector Control

The recycling center shall institute and maintain an effective vector control program at the center, directed by a qualified applicator of pesticides as set forth in the New Jersey Pesticide Control Code N.J.A.C. 7:30.

15. Dust Control

Dust shall be controlled by the spraying of water, the spreading of calcium chloride or equivalent means as approved by this Division.

16. Noise Control

Noise controls shall be implemented so that noise levels generated at the recycling operation shall not exceed the standards set forth by New Jersey Noise Control Regulations under N.J.A.C. 7:29-1.2.

17. Fire Protection and Emergency Response

Fire fighting and emergency procedures shall be posted, and shall include the telephone number of local fire, police, ambulance and hospital facilities.

If a fire occurs on-site, the facility shall immediately notify the local fire official and within 24 hours report the incident to the DEP Hotline at 1-877-WARNDEP.

18. Entrance Sign

A legible sign shall be posted and maintained at the entrance to the recycling center and indicate the hours of operation of the recycling center as well as

the following information:

- a. A listing of the approved recyclable materials as specified in Condition A.1 of this Approval.
- b. The size, weight or other restrictions regarding materials to be received.
- c. A notice that all vehicles delivering materials to the recycling center will be inspected, and if found to contain contaminants greater than 1% by volume, will be rejected.
- d. A notice that persons bringing materials to the recycling center shall complete and certify a materials receipt form.

19. Soil Tracking Control

Mud, soils or other materials shall not be tracked onto any public roads by any exiting vehicles. Effective measures shall be implemented to comply with this condition.

20. Site Access

Ingress and egress of the facility shall be restricted to Route 547 only.

21. Hazardous Waste

Any suspected or prohibited hazardous waste, as defined at N.J.A.C. 7:26G-5, found in a load accepted at the facility shall not be returned to the generator. Such materials shall be segregated and stored in a secure manner and shall be immediately reported to the N.J.D.E.P. Environmental Action Hotline at 1-877-WARNDEP. The owner/operator shall secure the name of the collector/hauler suspected of delivering such waste to the facility and related information surrounding the incident, if available, and shall make this information known to the Department's enforcement personnel.

22. Documents On-Site

A copy of the approved documents as referenced in Condition B.1 and a copy of this Approval shall be maintained at the facility and shall be made available

for inspection by Department personnel or its designated representatives.

23. End-Markets

All end-markets to which recyclable materials are transported from the recycling center shall remain consistent with those end-markets specified in the approved documents. Any modification in the actual end-market for a recyclable material specified in Condition A.1 shall be in conformance with N.J.A.C. 7:26A-3.10(f).

24. Right of Entry

The New Jersey Department of Environmental Protection shall have the right to enter and inspect, without prior notice, any building or other portion of the recycling center, or any other location of the company or its affiliated companies at any time.

This right to inspect includes, but not limited to, the right to engage in the following activities:

- a. Sampling any materials on site;
- b. Photographing or videotaping any portion of the recycling center;
- c. Investigating an actual or suspected source of pollution of the environment;
- d. Ascertaining compliance or non-compliance with the statutes, rules or regulations of the NJDEP, including conditions of the recycling center approval issued by the NJDEP; or
- e. Reviewing and copying all applicable records, which shall be made available to the NJDEP during an inspection and submitted to the NJDEP upon request.

D. RECORDKEEPING AND REPORTING

1. Recordkeeping

In accordance with N.J.A.C. 7:26A-3.17, the facility

shall maintain daily records of all materials received, stored, processed or transferred at the site. Said records shall be available at all times for inspection and shall indicate, at a minimum, the following:

- a. A daily record of the amounts of each recyclable materials by type and municipality of origin which are received, stored, processed or transferred each day, expressed in tons or in cubic yards. Those operators specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.
- b. The name, address, and telephone number of the end-markets for all recyclable materials transported from the recycling center, including the amount, in tons or cubic yards, transported to each end-market. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. NJDEP reserves the right to verify all end-market information submitted by the facility.
- c. The amount of residue disposed of, expressed in tons or cubic yards, including the name and the New Jersey Department of Environmental Protection solid waste registration number of the solid waste collector/hauler contracted to provide the haulage/disposal service. Those persons specifying the amount of residue in cubic yards shall also indicate the conversion ratio of residue from cubic yards to tons.

The facility shall retain the information for three (3) calendar years following the calendar year for which reporting is required.

## 2. Reporting

### a. Annual Report

In accordance with N.J.A.C. 7:26A-3.17, the facility

shall submit an annual report containing monthly summary statements of the information required pursuant to Condition D.1 above to the New Jersey Department of Environmental Protection on or before February 1 of each year, for the previous calendar year. The summaries shall include monthly totals of the amount of recyclable material received from each customer by the municipality of origin. Furthermore, the summaries shall include monthly totals of the amount of recyclable product transferred to each end-market. The summaries shall also include the amount of residue disposed of during each month. An annual fee will be paid to the Department on May 1, in accordance with N.J.A.C. 7:26A-2.1(b)1;

b. Residue Disposal

The facility shall certify in writing to the Department that all residue generated at the recycling center has been disposed of in accordance with the solid waste management rules at N.J.A.C. 7:26. The certification shall be submitted annually as part of the annual report;

c. Tonnage Report

The facility shall provide a recycling tonnage report by February 1 of each year to all municipalities from which recyclable material was received in the previous calendar year. The report shall detail the amount of each source separated, recyclable material, expressed in tons or cubic yards, brought to the recycling center. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yard to tons.

One original and one copy of the annual report and tonnage report shall be submitted to:

New Jersey Department of Environmental Protection  
Division of Solid and Hazardous Waste Management  
Chief, Bureau of Recycling and Planning  
P.O. Box 414  
Trenton, New Jersey 08625-0414

Failure to comply with any or all conditions of this Approval will result in the NJDEP seeking relief under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq. Specifically, each day of failure to so comply shall constitute a separate violation on the basis of

which a penalty shall be assessed pursuant to N.J.S.A. 13:1E-9 and may subject the facility to regulation as a solid waste facility pursuant to N.J.S.A. 13:1E-1 et seq. and N.J.A.C. 7:26-1 et seq.

The issuance of this Approval and the conditions of operation identified herein shall not be interpreted as relieving the applicant of his responsibility to secure and maintain all other applicable federal, State and local permits or similar forms of authorization relating to the construction and operation of this facility.

Recycling of Central Jersey, LLC  
577 S. Hope Chapel Road  
Jackson, N.J. 08527

RE: Recycling of Central Jersey, LLC  
Jackson Township, Ocean County  
Facility No. 1511001191  
General Class B Recycling Center Modification and Renewal

Dear Mr. Johnson:

This is in response to the name change, renewal and modification request of March 20, 2000, submitted by Pamela J. Flockhart, requesting the following modifications to your General Class B Recycling Center Approval dated June 15, 1994.

1. Name change from Bil-Jim Construction Co., Inc. II to Recycling of Central Jersey, LLC.
2. Renewal of General Class B Approval issued June 15, 1994.
3. Reconfiguration of both the processed and unprocessed materials stockpiles.
4. Revised site plan delineating stockpile locations, direction of surface water runoff, flow of vehicles within the facility and other previously requested site plan information.

Our review of each of these modification requests has been completed and as a result we have found each to be acceptable. Enclosed is a copy of your revised General Approval.

The revised Approval indicates the modification to the conditions effected, Conditions B.1, C.5, C.6 and C.8. In addition, Conditions C.2, C.13, C.17 and C.21 have been updated within this Approval and must be complied with in order for it to remain valid.

The Department will consider amendment or modification of the specific terms of the conditions of this Approval if a written request is submitted by certified mail within twenty (20) days of receipt of this Approval. Said written request must clearly state the proposed amendment or modification, and the factual basis for the request. This approval is non-transferable, except as set forth in N.J.A.C. 7:26A-3.15.

If you have any questions regarding this matter, please call James Pagano, of my staff, at (609) 984-6650 or by e-mail at [JPAGANO@dep.state.nj.us](mailto:JPAGANO@dep.state.nj.us).

Sincerely,

Thomas Sherman  
Assistant Director  
Office of Permitting &  
Technical Programs
